Monthly developers' meeting Feburary 2024

Inclusivity minute: Terminology

- Some commonly used words have historical context or negative connotations
- Many opportunities to make terminology more precise
    - E.g., "master/slave" was changed to "requestor/responder"
        - The change was more difficult than expected
        - Tradeoffs when implementing *others'* designs
    - Driving factors are readability/understandability/maintainability
- Many instances have been updated in our code bases
- If you see something that can be improved, change it!

Announcing gem5 bootcamp 2024

5 Days --- July 29 – Aug 2

- Working out specific numbers of attendees, costs, etc.

- Looking for travel grant sponsors (~50 students)

- Inviting professionals too!

  - **Free for sponsors!**
